Catalyst Battery Module-8cell		
MATERIAL:		WEIGHT:
DWG Filename		B
battery_module_v2		
SCALE:1:6		SHEET 1 OF 2

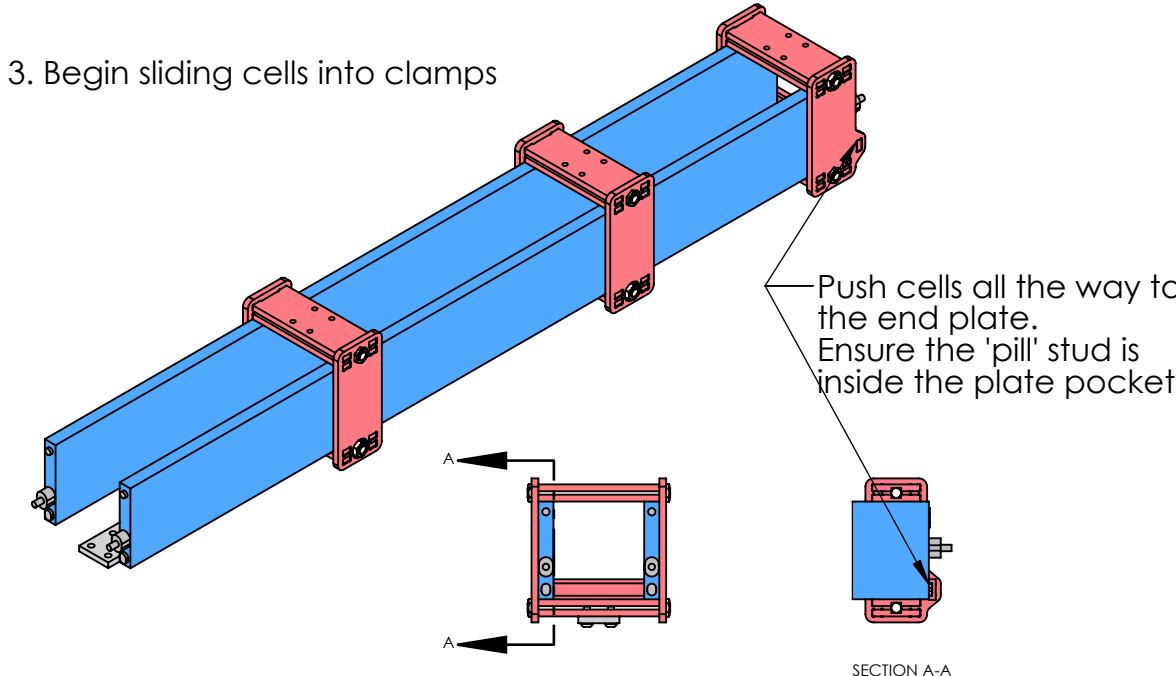

1. Mount 3 clamps to rail

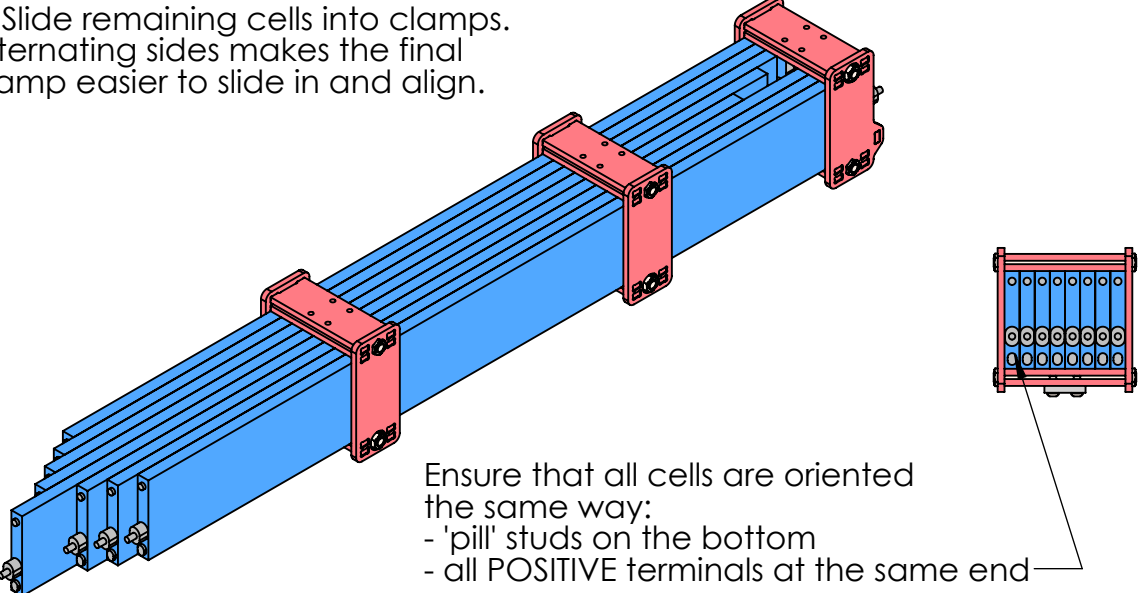

2. Loosen compression rods

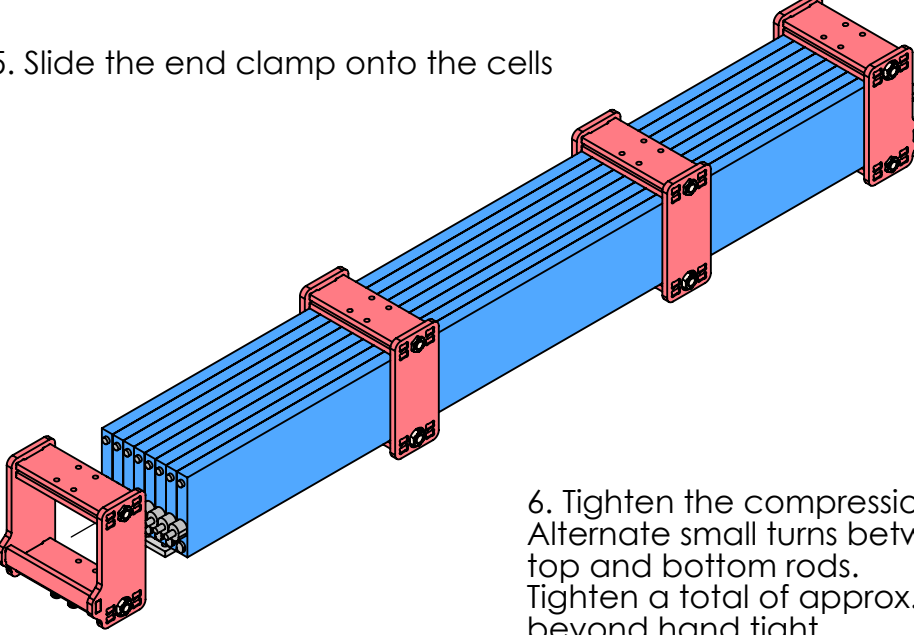

3. Begin sliding cells into clamps

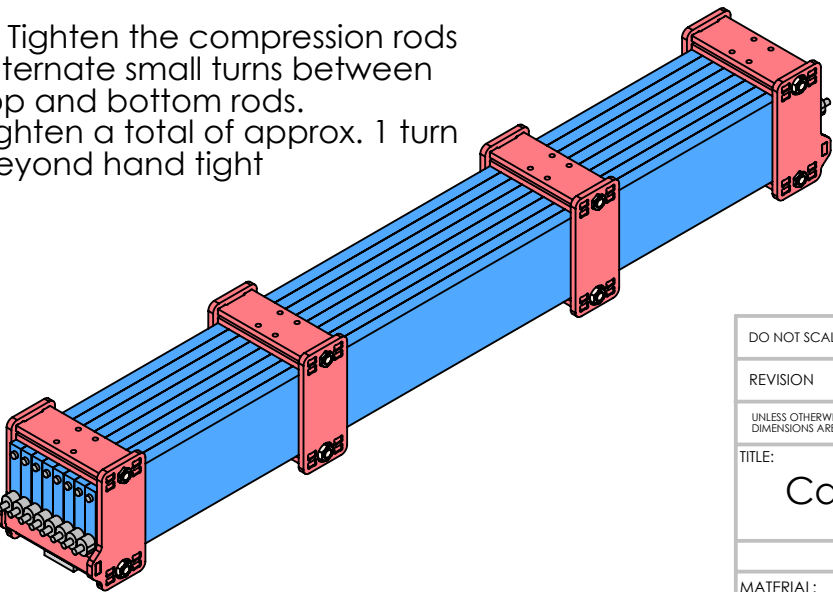

4. Slide remaining cells into clamps. Alternating sides makes the final clamp easier to slide in and align.

5. Slide the end clamp onto the cells

6. Tighten the compression rods Alternate small turns between top and bottom rods. Tighten a total of approx. 1 turn beyond hand tight
